About Me

My name is Alex, and I'm a 19-year-old from Germany. I began my coding journey nearly two years ago, starting with a 5-month front-end development training course where I learned the fundamentals of web development. In addition to my front-end skills, I have experience with Node.js and have worked with several back-end technologies. I'm a highly creative individual with a passion for exploring and learning new things. I speak excellent English, decent German, and my mother language is Romanian
